Bodi wey dey Kampe na una Right

For Italy, bodi wey dey kampe na right wey dem sabi well well and wey dem wan make all person dem get, and dem no care weda dem bi man or woman, wetin bi di colour of dem bodi, which kain language dem dey speak, weda dem bi christian, muslim abi somtin wey diffren, wetin dem tink about politics, how dem bi for dem life abi for dem area. People wey commot go yonda wey come from obodo wey no bi Europe fit dey sure say dem go get savis wey go make dem bodi dey kampe, and e no matta if una no bi citizen for Italy or if una no get paper wey correct for live for di obodo oyinbo. But sha, diffren-diffren levels dey for di kain right wey go make person dey get dis kain savis and na di level wey dis person wey come from yonda dey dem go take know:

People wey come from yonda wey get paper for live for di obodo and dem family dem get equal treatment, equal rights and full equality for get care wey go make dem bodi dey kampe like orijina italo people dem dey get. If una wan get dis savis, una go rejista with dem National Health Service (NHS) wey dey for ASL (Local Health Authority) for di district, where dem go give una medical card wey go make una fit get di savis. Wetin dem write for di card go last reach di same date wey dey on top una paper for live for di obodo oyinbo, and una go pay some kain money one time for every year. Dem dey collect di money only if una nefer talk say una dey work to get money and una don pay di taxes wey matta for obodo Italy.

Person wey come from yonda wey no get paper for live for di obodo oyinbo dem fit get urgent care wen dem no go sleep for di hospital, and dat bi say di medical care wey fit put di life or bodi of di person for danger sooner or later. Oda savis dem also dey sure: care for wen person get belle and wen im bon pikin, how pikin bodi sef go dey kampe, di kain injection wey no go allow yamma-yamma disease come pikin bodi, treatment wey no go allow person get yamma-yamma disease, how dem dey sabi say disease dey person bodi and how dem dey treat diseases wey oda people fit catch. Di people wey dey work for di hospital and wey dey take care of person no fit go report to gofment as per say person no get paper for live for di obodo oyinbo: di truth bi say dem sabi say make person bodi dey kampe dey more important dan make person no obey di law wey consain how person commot from im obodo come live for dem obodo (dem fit report only wen im dey compulsory make dem give medical report). Di first taim wen una go use di savis for make person bodi dey kampe, dem go give una one kain region STP code (Temporarily Present Foreigner) wey efribodi sabi for di obodo oyinbo. Una go fit use dis STP code for 6 months and una fit renew am. If person no get money wey dey enuf, di person must to sign wetin dem dey call self-certification so dat im go fit get di savis for free.

Dem expect say make person pay for di **ticket** if na specialist doctor wey sabi di kain sickness wey di person get come treat am. For all dis cases wey follow, person **fit no pay di money**: person wey im bodi no complete or wey im head no correct well-well, sickness wey don tey and wey dey make person sidon for one place, di kain money wey family dey make wey no reach certain amount (no get job; people wey get social protection status and/or di ones wey dey get small-small money for work) or some kain limit for age (in Lazio pikins wey dem age no reach 6 years and patients wey old pass 65 years wey dey make money wey no reach 36.151,98 euro per year). **People wey dey look for asylum, or people wey dey look for a place for yonda where dem go dey safe**, fit no pay di ticket until six months don pass after dem submit di application. Then, for make dem find work, dem fit rejista for di National Health Service dem; if dem no get job, dem fit apply say make dem allow dem make dem no pay, if dem meet di necessary requirements (dey make money wey no reach certain amount).

Bodi wey dey Kampe for Women dem

Di law for Italy make am sure say every woman – Italian or di ones wey come from anoda obodo – go get di kain care wey go make dem bodi dey kampe. As im bi, all women for Italy dey dey under care wen dem wan bon pikin, even if dem no get paper for live for di obodo oyinbo for hand.
Savis dem wey dey make di bodi of women dey kampe wen dem wan bon pikin sef get **family counseling clinics:** dis na public savis wey dey for everyone so dat di bodi and mind of women, couples, pikins wey go soon reach adult and small pikin dem go dey kampe.
Dem dey give diffren-diffren savis, wey include dose kain wey consain **how person no go get belle, care for person after im don bon pikin, how person fit commot pikin wey dey belle if im wan do so, how dem dey prevent yamma yamma disease wey person dey get from sex, and wen woman don reach di age wen she no go see im period again**. To get counselling dey free and dem no need tell una say make una go use melecin. Una no need to first go tell dem say una wan come for interview. Di savis na free, except di kain services wey special doctor for women dem dey do.
Every area wey dey for Rome get im own clinic, and na how di size of di area big reach plus di number of people wey dey live for there dey determine di number of clinics. In total dem get 43 area clinics where e dey possible, if di need dey, for person to ask make dem visit am special-special and im go get support from experts wey sabi im language and culture, if dem dey.
As di number of person wey commot for oda obodo come Italy dey increase, **savis dem wey dem put down for make di bodi of women wey commot for dem obodo to dey kampe** don dey popular. Wetin dem wan do bi say make dem make am easy for mama and pikin dem from diffren-diffren obodo to get savis wey go make dem bodi dey kampe, **as dem know say e get diffren-diffren kain language and culture**. For dis centers dem, dem dey train workers how dem go helep women wey commot for dem obodo come yonda - plus di kain things wey consain tradition – get di kain experts wey sabi diffren-diffren culture for di centers.

Savis wey person fit run go meet for Rome

THE CENTER SaMiFo:
Di center dey helep protect people wey run commot for dem obodo by force. For people wey dey look for asylum and dose wey bi refugees di center dey offer medical care: person go fit get helep for sickness wey normal and di one wey serios for dis diffren-diffren clinics wey dem work consain mental sickness, sickness wey consain women and how dem dey bon pikin, sickness wey consain bones, and test wey dem dey use know di person wey do crime.
