

UNA HEALTH, UNA RIGHTS

Sexual and Reproductive Health Services for Foreigners Women wey dey for Rome

Health na una Right

For Italy hear, health na people right wey dem recognise and dey protect every person, and dem no care about people sex, race, language, religion, their opinion for politics, their personal and social conditions. Even foreigners wey them come from countries wey dey outside Europe get access to health service. I no matter weader dem get Italian citizenship or Italian stay permit. All the same dem get different -diffrent ways wey the person fit get access to all their services according to the kind of status wey the foreigner get:

- **Foreign citizens wey get regular residence permit** plus their family wey depend on dem, dey get equal treatment, full equal rights and the same right to get accesse, dem fit receive the same health treatment wey Italian citizens go receive. For dem to receive these services dey need to register with the Nazional Health Service (NHS) which Italians dey call (SSN) wey dey for ASL (Local Health Authority) for the area district, where dem go give una medical card wey dey necessary to show to dem before una fit benefit from the service. The registration card go last reach di same date wey dey on top of una residence permit and una go pay some money once every year. Dis contribution dey necessary only in case person no present any declaration of yearly income and if una no pay the correct tax for Italian goverment.
- **Foreign citizens wey no get residence permit** dem get right to receive treatment in the clinic and in the hospital urgently and essentially I fit be short term or long term treatment provided nobody risk im life or im health. Dey also guarantee; Di protection of pregnancy of person wey get belle and maternity person wey born pikin, young children health, vaccinations, treatment wey no go allow person get any bad disease, to diagnos reveal and to treat infective diseases wey order people fit catch. Dem forbid any healthcare staff make dem no report to di authorities even wen dey notice say person no get residence permit: di way we dem dey take protect people health according to their law dey very important compare to person way commit crime wey be say I know get document to stay in dis country (dem fit report person only if I dey compulsory to give madical report) Di first time wey person go use healthcare service, dem go give una one kain card region code number STP (Foreigners Temporarily Present) wey dem recognize throughout di national territory. Di STP code number card dey valid for 6 months and una fit renew am. In case of poverty condition dem fit tell di person make I sign self declaration se im no get money before dem go allow am receive free service.

For any specialist visit dem fit ask di person to pay **ticket**. But in some cases dem dey **exclude person from such payment**: like people wey dey invalid, serious chronic sickness, low family income under minimum rage (disoccupied people wey lose their job: people wey get social benefit or minimum pension allowance) and certain age limit (for Lazio region dey exclude children wey dey under 6 years and patients wey old pass 65 year, wey their income no reach 36.151,98 euro per year).

People wey dey ask for asylum, or people wey dey want seek for international protection, dey exclude dem form paying ticket for six months after dey don submit application for asylum. Later if dem find work, dem fit register for di National Health Service; then if dem lose their job, dem fit apply so dat dem go exclude dem make dem no pay if dem meet di necessary requirements (their income no reach certain amount).

Women's Health

Italian law dey give guarantee to every woman – Italian or foreigner – di right to get treatment. In particular, all di women wey dey for Italy get maternity protection, even if dem no get residence permit for hand.

Among di Services for sexual and reproductive for women, dem get also **maternity center**: dis na public services wey dey open to everyone dem dey protect and promote physical and mental health of women, couples, teenagers and small children.

Dem dey offer diffren-diffren services, among all di one wey concern **contraceptic pills, to become pregnant dat is to get belle, assistance for person after im don born pikin, how person fit commot pikin wey dey belle if im wan do so, how person fit dey prevent disease wey person fit get through sex, and for menopause.** Person dey free to go maternity center and no need for doctor prescription. Una no need to take appointment for interview. . Di services na free, except if person need any special kind of visit wey special doctor for women go do. Every municipality wey dey for Rome get im own territorial zone maternity clinics, and na how di size of di municipality big reach plus di number of people wey dey live there go determine d number. In total dem get 43 territorial maternity clinics for Rome where if possible, if necessary, person fit ask make dem book visit for am to see special-doctor and im go get support from experts interpretas wey sabi im language and culture.

As di number of foreign person wey dey live for Italy dey increase, dey begin to open **services wey dem dedicate to di health of women wey commot from their country come stay for Italy.** Their aim na to make am dey easy for mothers-infant pikin wey come from diffren diffren country to get health services, **as dem know and dey put am for mind say people get diffren-diffren kind of language and culture.** For dis centers dey get train staff to meet up wit di needs of foreign women including dose wey concern their traditional practice – and cultural interpretas.
